BRINGING BEST EVIDENCE TO CLINICIANS

**COMBINING EVIDENCE & CLINICAL
PHARMACOLOGY TO IMPROVE DRUG THERAPY**

OCT 21, 2017
SAT

SURREY MEMORIAL HOSPITAL
SURREY BC

WHO SHOULD ATTEND

- Family Physicians
- Pharmacists
- Specialists
- Nurses/Nurse Practitioners
- Allied Health Professionals

Join us for this popular conference designed to provide physicians, pharmacists, nurses, and other health professionals with up-to-date, evidence-based, practical information on prescription drug therapy.

Lectures will provide reviews of best evidence for therapeutics in geriatrics, diabetes, infections, and more.

Small group workshops use interactive case-based discussion focused on practical approaches to common therapeutic problems, data and Cochrane review interpretation, and deprescribing.

Comments from previous years:

"Unbiased speakers who strongly believe in practicing evidence-based medicine."

"Always an excellent course!"

"Probing questions make you examine your beliefs and how you practice."

Note that this conference is not supported by industry funding.
