

Hybrid Event: in person (Edmonton) and live webcast

Open for individual or group registration!

The PEER team is pleased to announce that the 11th annual Practical Evidence for Informed Practice (PEIP) conference is open for registration. Join us for entertaining evidence-based reviews of clinically relevant primary care topics.

We have another great line up of fantastic speakers - including many of your favorites (Mike Allan, James McCormack, Jessica Kirkwood, Tina Korownyk) and great first-time PEIP presenters (Menaka Pai, Hematology; Emily McDonald, Internal Med) and many more.

PEIP 2022 topics include:

- Soothing answers to burning questions in UTI management
- Ironing out anemia management
- Choose your own adventure: putting evidence into practice
- Starving for good answers to weight loss?
- Strained, sprained and in pain: MSK solutions
- What's new, what's true and what's poo... and much more!

Ideal for family physicians, nurses, pharmacists, health care students and medical residents. Free from industry support.

JOIN US

We're back for the 11th year of the Practical Evidence for Informed Practice (PEIP) conference! Join us for another year of the latest information in medicine that is focused, concise and relevant to primary care.

This event continues to be free of industry bias and aims to provide clinical bottom lines that are immediately applicable to your practice!

PEIP HYPE

"Hands down one of the best educational events I attend. Very informative, succinct, relevant and entertaining."

"This conference has changed the face of family medicine as we practice it over the past few years! By family physicians for family physicians. Love it!"

ENGAGE IN OUR LIVE WEBCAST

As virtual CPD continues to grow in popularity, the scientific planning committee is committed to ensuring our attendees experience is to calibre. Enjoy the conference from your home or with your colleagues at your clinic.

Visit www.peipconference.ca for full conference details.
