

## Best Evidence Webinar

### Minimizing harms of tight glycemic control in older people with type 2 diabetes

Tuesday, December 3, 2024 @ 12:00-1:00PM PST

Dr. Wade Thompson will review evidence and key messages from the recent Therapeutics Letter and Portrait on management type 2 diabetes for older adults. Following the webinar, participants will be able to describe considerations for treating type 2 diabetes among older adults and apply them in clinical practice.
