

Best Evidence Webinar

Appropriate HbA1c testing frequency to monitor patients with type 2 diabetes

Wednesday, April 8, 2026 @ 12:00-1:00PM PDT

In this TI Best Evidence Webinar, Dr. Wade Thompson will review the evidence presented in the recently published Therapeutics Letter on this topic and the associated personal prescribing Portrait, answer questions, and discuss how to optimize HbA1c testing in patients with type 2 diabetes.

Registered users of the TI Portrait program can claim up to 5.0 MainPro+ Certified Assessment Activity credits
